

AUTO RACES WILL BE HELD HERE JUNE 14-15

On Friday and Saturday of this week, June 14 and 15, occur the big auto racing event at the track of the Custer county fair. These races are sponsored by a very reliable company that has put on some strong racing events in various sections of the central west.

The management of the Custer County Fair is not directly connected with this event, but with the knowledge of the success that auto racing has met with and the interest taken in it by the general public, the fair officials feel that this will be a June meeting that should be well patronized. Our latest information is that there will be a good string of cars and drivers, that there will be no amateurs in the races which will eliminate a great element of danger and professional drivers will contest in the various events. It is expected that some fast time, track conditions being considered, will be made.

FASTEST CARS ALWAYS AT THE N. C. K. TRACK

JUST A PART OF THE BIG CROWDS IN THE QUARTER STRETCH
